

## Team Player

It takes many people working together in many different roles to make our School District great. I will strive to support each person in the important role each one of them plays. Each person has worth and dignity and is to be treated with respect. I will strive to support the many others working on the USD #259 team. We have great teachers and staff and I will support them so they can do their jobs and do them well. I will work together with others to accomplish the huge task of educating all our 50.000+ students.
